COMPANY INTRODUCTORY

ENGINEERING BEHIND US....

Established in 2018, PT. Mie Tekno Indonesia is a reputable distributor of variety of industrial and agricultural processes equipment throughout Indonesia. Well equipped with dedicated and committed team from various expertise in leadership, marketing and technical, we has since become one of the best leading distributors.

We present herewith the products under our agency as follows:

RADIX Electrosystem Pvt.Ltd

Appointed RADIX Electrosystem Pvt.Ltd,— INDIA, since 2020

Web site : <http://radix.co.in/>

TORQ Valve Pvt.Ltd

Appointed TORQ Valve Pvt.Ltd,— INDIA, since 2020

Web Site : <http://www.torqvalves.com/>

With strong support and back up from our principals combined with our massive experience and expertise in this field, we are able to consistently deliver high valued products and services to our customers

Over the years, we have continually evolved our business to encompass a broad range of services. This allows us to effectively compete in the marketplace by being one of few distributors that is capable to provide the most comprehensive technical solutions that are customized for the specific needs of our customers.

We strive to be the best for our customers through our understanding on the industrial needs and by continually enhancing our tehcnical knowhow of our team. The success of our business ventures exemplifies our vision, mission and management capabilities. .

OUR COMMITMENT TO YOU

From Sizing ...

Our policy at PT.MIE TEKNO INDONESIA is striving to serve and be the best for you., we persistently evolve our business to encompass a broad range of services to accommodate and meet the changing needs in your business needs.

As our motto “**ENGINEERING BEHIND US**”, we do business with you by helping to solve and alleviate your problems as our main objective.

We have professional team with excellent product knowledge and technical knowledge. We know our products, we know what products will suit your needs; and we continually serve and support you after you buy from us.

DWYER FLOW PRODUCTS

◎ INSTRUMENTS

- CLEAN ROOM INDICATORS
- TEMPERATURE CONTROLLERS,
- PROCESS INDICATORS,
- TEMPERATURE TRANSMITTERS,
- GPS MASTER-SLAVE CLOCKS
- SCANNERS
- SIGNAL ISOLATORS
- DOOR INTERLOCK SYSTEM
- CALIBRATORS
- COUNTERS
- TIMERS
- WIRELESS SENSORS & INSTRUMENT SYSTEM

◎ AUTOMATION

- AUTOMATION PROJECTS
- CONTROL PANELS
- RSCADA
- ANALOG INPUT MODULES
- THYRISTOR POWER REGULATOR
- CONVERTERS AND COMMUNICATION PRO

◎ SENSOR

- TEMPERATURE SENSORS –THERMOCOUPLES
- TEMPERATURE SENSORS
- LEVEL SENSORS AND TRANSMITTERS
- DIFFERENTIAL PRESSURE SENSORS AND TRANSMITTERS
- HANDHELD THERMOMETERS
- HUMIDITY SENSORS AND TRANSMITTERS

◎ GAUGES

- DIAL THERMOMETERS
- PRESSURE GAUGES
- PRESSURE GAUGE ACCESSORIES
- LEVEL GAUGES

DCC603

+ 91 9324934001 (Cell)

12 analogue MODBUS TCP masters and 32 slave addresses required for each TCP master

MULTI HOST ETHERNET TO SERIAL CONVERTER

- 10/100 Mbps Ethernet port
- Serial Interface: RS232, RS485, RS422
- Configurable baud rate, parity, stop bits, IP address, MODBUS TCP server port no.
- 12-48 VDC power supply
- Mounting: DIN Rail / Surface
- Redundant power inputs: Full (0-6A, 602.5W, Class 1) and DC jack

Browser based configuration utility TCP Server/Client

Single host & multi-host Options available

MODBUS RTU protocol MODBUS TCP to MODBUS RTU

Easy reset feature Can be restored by pressing reset switch at power ON

HANDHELD THERMOMETER

INPUT : Pt100

- Resolution : 0.1/1°C
- Battery : Standard 9V
- Display : 3 1/2 digit, 0.5" LCD with maximum reading of 9999
- Accuracy : -150.0°C ~ 199.9°C : ± 0.6 °C
-200°C ~ 600°C : ± 2°C
- Large variety of probes for all applications

RTDs WITH M12 CONNECTORS

radix®

- Pt100, 4-wire
- Class A accuracy
- 75 to +200°C measuring range
- M12 connector with IP69K for electrical connection
- AISI 316L (EN1.4404) wetted parts

APPLICATIONS

- Food & Beverage
- Laboratory & Medical
- Oil & Gas / Chemical
- Water & Waste water
- Energy

RCM200 RCM202 RCM206

NEX205

PID CONTROLLERS WITH UNMATCHED SPECS!

LARGE DISPLAY
25.4 x 14.2 mm

LOW DEPTH
60 mm

IP66 / NEMA 4X

- 2 x universal inputs
- 6 x digital inputs
- 2 x analog outputs
- 7 x relays
- Isolated RS485/MODBUS RTU

- Universal input
- 4-20 mA or 20-4 mA selection for output
- Isolation : 1000 VAC RMS, 50 hz/1 minute
- 0.1% linearisation accuracy

DIN RAIL MOUNT FLAMEPROOF PIPE MOUNT FLAMEPROOF SURFACE MOUNT

DIAL THERMOMETERS

Bottom Mount with External Zero Adjustment BEA200

Bi-metal Type, At Angle, Bottom Mounting, Adjustable BEA110

Direct Back Mounting, Adjustable Filling BEA500

Bottom Mount, Sanitary Filling BE700

Gas Filled Type, With Capillary, Remote mounting GEA800

Liquid Filled Type, With Capillary, Remote mounting LEA600

Direct Back Mounting, Fixed Filling BE700

AVS - Gas Filled Type GEA200

- Wide range of industrial applications
- Available with Bimetallic, Gas Filled & Liquid Filled
- Scale ranges from -50 to 250 °C to 0 to 600 °C
- Accuracy per EN13190

PRESSURE TRANSMITTER TRICLOVER SANITARY CONNECTION

PTF601

- RANGE
40 bar
- OUTPUT
4-20 mA, 2-wire
- ACCURACY
1%
- SUPPLY
10-30 VDC
- PROCESS CONNECTION
1.5" (50.4 mm) tri-clover, SS316L

Applications

- Sanitary applications
- Food and beverage, dairy, breweries

SANITARY RTDs

RHS600

- Pt100, 3/4-wire
- Class A / Class AA accuracy
- Single / dual element
- Roughness value (Ra) ≤ 0.51 µm for wetted part
- 50 to +250°C measuring range
- Wetted parts made of AISI 316L (EN1.4404)
- Protection class IP68

RHS602 RHS802
